EFFICIENCY FOR THE PHARMACY • SAFETY FOR THE PATIENT

Northern Plains Label custom manufactures these labels to meet all your specific needs:

- Pharmacy Contact Information
- Custom color(s) / Design / Watermarks

The 2" x 4" perforated prescription label includes all prescription information in duplicate locations on the label. The perforation is designed for long-term care cassettes or small products such as eye drops, syringes, and inhalers.

PHARMACY LABEL

PROCESS:

- Print prescription information and barcode on **Section A** and **B**
- **Section A** is designed for larger product or container
- **Section B** is designed for use on small tubes/bottles/vials

BENEFIT:

- Easily applied to packaging and contents
- Prescription information and patient ID is clearly marked when prescription is out of packaging.

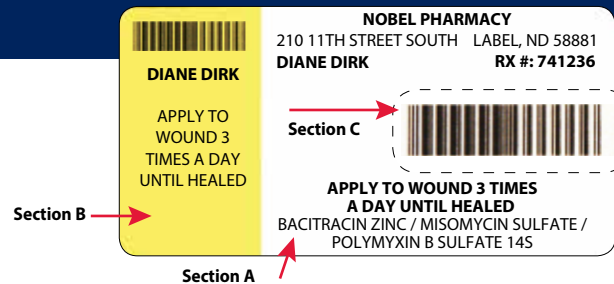

LONG-TERM CARE LABEL

PROCESS:

- Print all prescription information on **Section A** and **B**
- **Section C:** Barcode reorder tab

BENEFIT:

- 2" x 3" section is used on the packaging
- Small label is ideal for medication cassettes
- **Section C:** Convenient reorder tab

PRESCRIPTION BAG LABEL

PROCESS:

- Print prescription information for each item in the bag, on **Section A**
- **Section A** serves as a packing list of the Pharmacy Bag Contents and is attached to the back of the bag
- Print the Bar Code and Patient Initials on **Section B** and use to seal the bag on the front

BENEFITS:

- HIPPA Compliant: protects the patient's information
- Expedites Prescription bagging time
- Reduces patient's wait time for prescription pick-up

Credit cards and purchase orders accepted.
